

The Top 7 Reasons to Install Our New Hardwired Sensors

From the basic residential to the most complex commercial installation, our versatile sensors meet the requirements.

1

Great Versatility

2

Easy Installation with Snap & Set Technology

From a snap-open case to an optional flashlight walk test feature, there are many installer-friendly features to save you time and money.

3

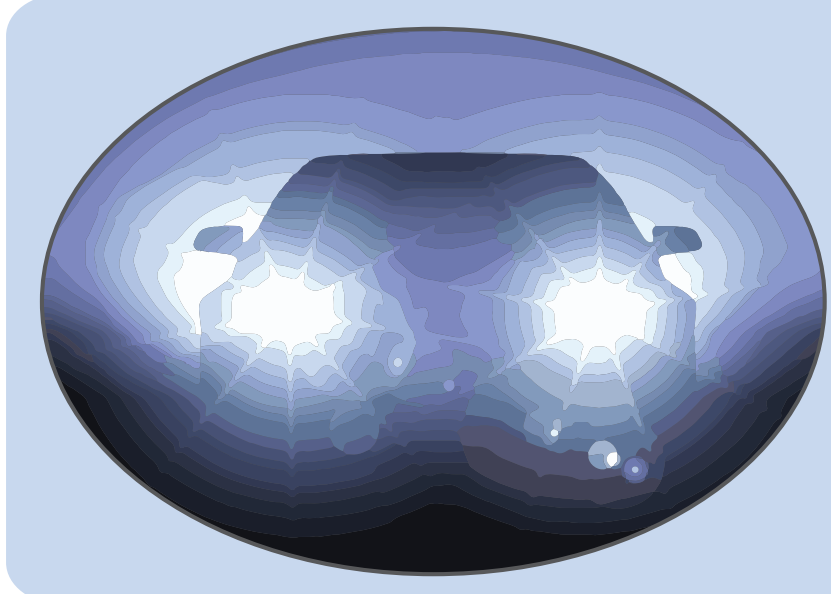

Exceptional Catch Performance

Our custom-designed Fresnel and mirror-based optics combined with full pattern detection provides superior, wall-to-wall protection.

4

Unmatched White-Light Immunity

Our patented technology helps reduce false alarms from lights, flashlights or reflective objects.

5

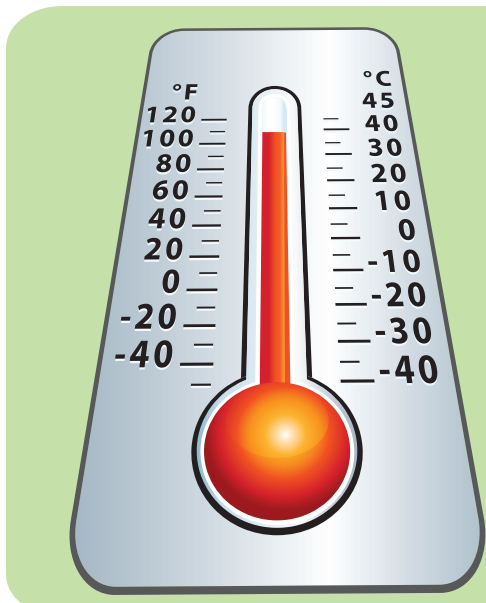

Superior Pet Immunity

Backed by extensive design and field testing, these sensors deliver exceptional pet immunity for pets up to 100 lbs.

6

Outstanding High Temperature Detection

These sensors deliver 25% better detection range in high temperatures. Lab tests show they operate trouble-free in warehouses and factories with temperatures over 95°F (35°C).

7

Breakthrough Anti-Masking

Our anti-masking technology provides maximum protection against would-be intruders attempting to block the field of view with almost any type of sprays and liquid.
