5800RPS Wireless Recessed Transmitter

The world's smallest wireless recessed transmitter, Honeywell's 5800RPS disappears when installed—making it a huge selling point for any installation where aesthetics matter. When appearances count, count on the 5800RPS. It's the best way to matter standout and close more sales!

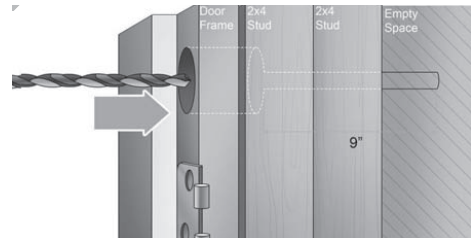

5800RPS

- Smallest wireless security transmitter available today
- Completely concealed after installation—no more unsightly surface mount bulk
- Fast, clean installation with no wire runs—requires only a drill, 3/4" drill bit and 1/4" wood drill bit
- Ideal for both residential and commercial settings, it works perfectly with wood or steel frames and concrete or wood walls
- Up to seven year battery life depending on use
- Compatible with Honeywell's VISTA and LYNX control panels and all 5800 Series wireless receivers and transceivers

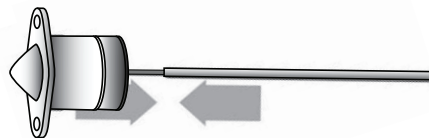

Easy on the Eyes and Easy to Install!

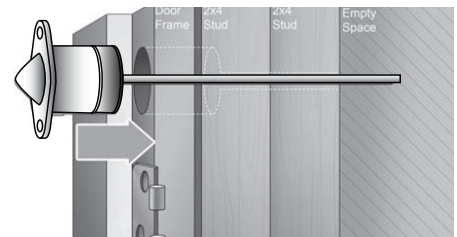

1 Measure and Drill for Plunger

2 Drill for Antenna

3 Slide on Straw

4 Place and Set
