VISTA® Plus Series

Honeywell

INFORMATION FOR SECURITY DEALERS

Build Your Business with VISTA...
the Industry's Leading Residential Control

Take Control of **Opportunity**!

There's a reason Honeywell's VISTA® Plus Series are the security industry's most widely used control panels. They provide you and your customers with more of what you both really want: simplified installations, robust protection and innovative, lifestyle-enhancing features including simplified operation and support for home automation and control.

- Integrates intrusion, fire, GSM radio, state-of-the-art alarm communications, video and home automation capabilities in one flexible, scalable system

- Engineered to seamlessly integrate with Honeywell's full range of keypads, graphic touchscreens, transmitters, hardwired and wireless sensors and individual fire components—giving you the flexibility to create a customized solution at every stage of your customers' needs

- Provides time and cost efficiencies for installations, training, system programming and inventory

Higher System Capacity
Expand systems up to 48 zones using hardwired or wireless expansion.

Wireless Keys
Add wireless keys without using any protection zones!

Battery Saver
Unique load shed feature saves batteries during extended power outages and reduces service calls

IP Support
Uploading/downloading panel programming information over the Internet instead of using telephone lines reduces installation time

False Alarm Reduction
VISTA systems incorporate the latest false alarm reduction features, including Exit Delay Restart, Auto Stay, Cross Zoning and Cancel Verification

Expansion Modules
Wireless Keys

Panic Transmitters

VISTA-21iP
48 Zone Control Panel with Integrated IP Communicator

Honeywell's VISTA-21iP Control Panel delivers a full communications solution with an integrated Internet communicator and optional snap-in GSM radio right on board. It delivers the same installation advantages, innovative end-user benefits and robust system capacity you've come to expect from VISTA panels—plus a whole lot more.

• Built-in Internet communicator provides the most sophisticated, reliable data security—with no installation required!

• VISTA GSM Digital Communicator combines the dialer, Internet and GSM in one cabinet

• Quad-Path technology provides four paths of communication using the dialer, the Internet, GPRS and SMS for added reliability and security

• Primary communications path is selectable—offering the most convenient, cost-efficient way to communicate

• Great alternative to TELCO lines—providing a faster communications solution at higher speeds than the traditional POTS method

Save **Installation Time!**

Touchscreen

Tuxedo Touch™
### TUXS and TUXW—SECURING AND AUTOMATION CONTOLLER

Honeywell's Tuxedo Touch Series provides you with an excellent way to include home automation as part of your security package. The magnificent, 7" high-resolution graphic touchscreen provides you with the easiest, most affordable way to tie all of the technology in your customers' homes and businesses together—including security, cameras and Z-Wave® enabled thermostats, lights, locks, thermostats and shades.

- State-of-the-art home and building controller, video viewer, digital picture frame and integrated security in one easy-to-use interface
- Icons and menu-driven prompts make operation simple and intuitive
- A built-in web server lets your customers control Tuxedo Touch anywhere in their home or facility on an iPhone®, iPad®, Android™, BlackBerry®, web-enabled TV or any compatible wireless mobile device (TUXWIFIW and TUXWIFIS)

- Low-cost installation, has tremendous consumer appeal and is a great way to close more business, increase your average sales price and reduce attrition
- Automation and control of Z-Wave enabled lights and thermostats
- View live video of up to four cameras around the premises on the touchscreen, smartphones, tablets or televisions
- Can be installed in any new or existing home at any time—without any hassle
- Digital picture frame feature lets homeowners display family photos and create slideshows
- Homeowners can play personal videos from an SD card right at the touchscreen
- Available in white and silver/black to match any décor
- Choice of English, French Canadian and Spanish languages to open new markets
- Voice annunciation of type and location of alarm (English language only)

iPhone and iPad are registered trademarks of Apple® Inc. All other trademarks are properties of their respective owners.

Keypads

6150/6150V

6160/6160V

Basic

Easy to use and easy to read, Honeywell's basic wall-mounted keypads make security system operation simple. Large, bright displays spell out system status in plain English without any codes to remember. Keys are soft-to-the-touch, labeled with simple commands and illuminated for easy nighttime visibility. Our talking keypads annunciate the type of alarm and location in an emergency—giving your customers time to act quickly in an emergency.

Honeywell Total Connect™
Remote Services

Services

Remote

If you're looking for additional RMR, consider offering Honeywell Total Connect Remote Services on every installation. Your customers will be able to connect to their homes and families whenever they want, wherever they are on the same mobile devices they use every day.

Your customers can:
• Be alerted to important events inside or outside their homes via email, text messages or video notification

• Know if their children have arrived home from school by a certain time or if they haven't

• Keep an eye on kids, babysitters, elderly relatives, pets and property via remote look-in video

• Be notified about floods, leaks and extreme temperature changes

• Receive alerts if valuable objects like antiques, paintings or electronics have been moved or disturbed
